

SIRAJ'S STORE

This full-stack website allows CRUD operations such as: creating an account at the store, changing password, adding items to the cart, removing items from the cart, purchasing the items, and checking purchases history.

Home page:

This is the index page. It will load the data from the database and view it to the user. You can reach it by clicking on "Home" on the navigation bar.

Register page:

This page will allow users to create a new account. You can reach it by clicking "Register" on the navigation bar (if you are not already logged in).

Login page:

This page will allow users to log in if they have an existing account. You can reach it by clicking "Log In" on the navigation bar (if you are not already logged in).

Payment Page:

The payment page will load the items that are in the user's cart from the database, and the user will be able to purchase the items or remove them from their cart. You can reach it by clicking "Cart Icon" on the navigation bar (if you are logged in).

History page:

This page will view all previous purchases of the user, loaded from the database. You can reach it by clicking your name in the drop-down menu on the navigation bar and then selecting "History" (if you are logged in).

My Account page:

This page will load the user's information from the database and display them. Moreover, the user can change their password. You can reach it by clicking your name in the drop-down menu on the navigation bar and then selecting "My Account" (if you are logged in).
